

## **Minutes School Council**

**Monday 23<sup>rd</sup> January**

The Year 5/6 school councillors met to discuss the feedback from the Tower Hamlets Pupil Attitudes Survey.

### **Mobile Phones and Online Safety.**

Max said that there were too many scams and fake websites that look real.

Faizah said she was worried about children having devices but not knowing what to do.

Council talked about the inappropriate videos that they sometimes see online and the importance of having a report button.

Online parents sessions could be useful and it is important that parents don't leave their children to go online without supervision.

### **Emotional Wellbeing.**

Council felt that an emotional wellbeing service would help to share feelings. Need more therapists in schools. Better to have safe ways to let your feelings out that have them kept inside you.

Nadira suggested that there is lots of rubbish on the Isle of Dogs and we should do more to look after our community.

### **London Air Ambulance**

The council members who are also part of the pupil parliament also thought about how we could raise awareness and money for the London Air Ambulance. Suggested ideas were:

School council event such as a bake sale, cinema afternoon or a football tournament.

Making posters about London Air Ambulance.
