To be reviewed: December 2022

St Luke's Primary School Policy for Accessibility

Our Mission at St. Luke's Church of England Primary School is as follows:

St. Luke's is a caring Church of England Primary School that is committed to supporting our pupils to be happy, successful, generous and fulfilled throughout their lives. We believe that each of us is unique and valued by God—all made in his image. And so we aspire to provide an outstanding education for all. We do this by:

- Promoting the **highest standards** of teaching and learning, with excellent leadership
- Being **inclusive**, celebrating diversity including all religions, faiths, cultures and backgrounds
- Providing a **rich and stimulating curriculum that will inspire and challenge all our learners**
- Being a **safe**, healthy and happy place
- Providing **excellent care, guidance and support**
- Having a strong partnership between school, parents and the community

For the purpose of this plan, we have highlighted words and statements of particular relevance. We aim to meet the needs of all members of our community on the Isle of Dogs and in particular those who need our support the most. Furthermore, we are ambitious for every one of the children who comes to our school. This plan is designed to enable every disabled child in our school, to achieve their highest standards by ensuring they can access the curriculum whilst being provided with excellent care and support in a safe and accessible environment.

Member of staff responsible:

- Harriet Pickering, SENCO
- Mike Gleeson, School Business Manager

Governor responsible:

- Hylton Bellinger, Health and Safety Link Governor
- Nina Kerr, SEND Link Governor

Introduction

This plan is drawn up in accordance with the duties covered by The Equality Act 2010, in particular Part 6 Chapter 1 (Schools) and Schedule 10 (Accessibility for Disabled Pupils):

- Not to treat disabled pupils less favourably for a reason related to their disability;
- To make reasonable adjustments within a reasonable time for disabled pupils, so that they are not at a substantial disadvantage;
- To increase the extent to which disabled pupils can participate in the school curriculum;
- To improve the physical environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services;
- To improve the delivery to disabled pupils of information which is provided for pupils who are not disabled.

Definition of Disability

You are disabled under The Equality Act 2010 if you have a physical or mental impairment that has a 'substantial' and 'long-term' negative effect on your ability to do normal daily activities. Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Key Objectives

Schools are required under the Equality Act 2010 to have an accessibility plan.

The objectives of this plan are:

- Increase the extent to which disabled pupils can participate in the school's **curriculum**;
- Improve the availability of accessible **information** to disabled pupils;
- Improve the physical **environment** of the school for the purpose of increasing the extent to which disabled pupils are able to take advantage of education and benefits, facilities or services provided or offered by the school.

Principles

- Compliance with the Disability Discrimination Act (DDA) is consistent with the school's aims and equal opportunities policy, and the operation of the school's Special Educational Needs (SEN) policy;
- The school recognises its duty under the DDA (as amended by the Special Educational Needs and Disability Act 2001 (SENDA)):
 - Not to discriminate against disabled pupils in admissions and exclusions, and provision of education and associated services;
 - Not to treat disabled pupils less favourably;
 - To take reasonable steps to avoid putting disabled pupils at a substantial disadvantage;
 - To publish an Accessibility Plan.
- In performing their duties, governors and staff will have regard to the Disability Rights Commission (DRC) Code of Practice (2002).
- The school recognises and values parents' knowledge of their child's disability and its effect on his/her ability to carry out normal activities, and respects the parents' and child's right to confidentiality.
- The school provides all pupils with a broad and balanced curriculum, differentiated and adjusted to meet the needs of individual pupils and their preferred learning styles; and endorses the key principles in the National Curriculum 2014 framework, which underpins the development of a inclusive curriculum:
 - Setting suitable learning challenges;
 - Responding to pupils' diverse learning needs;
 - Overcoming potential barriers to learning and assessment for individuals and groups of pupils.

Activity

This section outlines the main activities with the school undertakes, and is planning to undertake, to achieve the key objectives outlined above.

a) Education & related activities

The school will continue to seek and follow the advice of Local Education Authority (LEA) services, such as specialist teacher advisers and SEN inspectors/advisers, and of appropriate health professionals from the local NHS Trusts.

b) Physical environment

The school will take account of the needs of pupils and visitors with physical difficulties and sensory impairments when planning and undertaking future improvements and refurbishments of the site and premises, such as improved access, lighting, acoustic treatment and colour schemes, and more accessible facilities and fittings.

c) Provision of information

The school will make itself aware of local services, including those provided through the LA, for providing information in alternative formats when required or requested.

An Accessibility Plan is drawn up to cover a three-year period. The plan will be updated annually. Please read in conjunction with the attached Access Plans.

The Accessibility Plan will contain relevant actions to:

- Improve access to the physical environment of the school, adding specialist facilities as necessary. This covers reasonable adjustments to the physical environment of the school and physical aids to access education.
- Increase access to the curriculum for pupils with a disability, expanding and making reasonable adjustments to the curriculum as necessary to ensure that pupils with a disability are as equally prepared for life as able-bodied pupils are; (If a school fails to do this they are in breach of the DDA). This covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits. It also covers the provision of specialist aids and equipment, which may assist these pupils in accessing the curriculum.
- Improve and make reasonable adjustments to the delivery of written information to pupils, staff, parents and visitors with disabilities. Examples might include hand-outs, timetables, textbooks and information about the school and school events. The information should be made available in various preferred formats within a reasonable time frame.

The Action Plan for physical accessibility relates to the Access Audit of the School, which is undertaken regularly. It may not be feasible to undertake some of the works during the life of this first Accessibility Plan and therefore some items will roll forward into subsequent plans. The audit will need to be revisited prior to the end of each first three-year plan period in order to inform the development of the new Plan for the following period.

Monitoring and Evaluation

As curriculum policies are reviewed, a section relating to access will be added to that on Equality and Diversity. The terms of reference for all governors' committees will contain an item on "having regard to matters relating to Access".

The School's complaints procedure covers the Accessibility Plan.

The Plan will be monitored through the Curriculum Committee of the Governors.

We acknowledge that there is a need for on-going awareness raising and training for staff and governors in the matter of disability discrimination and the need to inform attitudes on this matter.
