

      
My story about starting a new

   
school year

      
Last year we started the school year

    
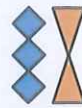

in our classrooms. Because of Corona

       
Virus we had to learn from home for

    
the rest of the school year.

The same:

Different:

In September I can go back to

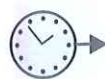

school. I will be learning with my

class. Some things will be the same

+

and some things will be different.

  
 My school will be the same, I am

  
 returning to the same school. My class will

  
 be the same. I will see my classmates

  
 and friends. There will be lots of adults in

  
 the building that know me very well.

     
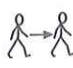

Some things in school will be different.

     +   
I will have a new classroom and the tables

      
will be arranged in a different way.

   **1**     
The school will have a one way walking system,

       
the adults will help me follow the arrows.

 Somethings in school will be different.

 We won't have assembly in the hall.

 Play times and lunch times will be a bit different too.

 Even though there's lots of changes, a lot will stay the

 same. And these changes won't last forever, it is just for

 now.

 In school there will be lots of ways to stay safe.

 We will wash our hands a lot.

 There will be lots of hand sanitiser available.

 We won't share equipment.

 Just like before, I can talk to an adult if I feel nervous about

 anything in school. I know a school adult will help me.

I am going back to school in September.

All of the adults in school are so excited to

have the children back.

I know it will be a little bit different and

this makes it safe.

 This  is  my  story  about returning to

 school  in  September.

 In school  there  will  always  be adults

 to talk to  if I  feel worried  or nervous.
